KEEP UP THE LEVY

LAMKIN URGES SCHOOL BOARDS TO TAKE SAFE COURSE

ADVISES AN INCREASE

Suggests That Provision Be Made for Enough Money to Secure a Greater Efficiency

County Superintendent Bert Cooper, in a letter from State Superintendent Uel W. Lamkin, is asked to caution members of school boards to make provision for an adequate sum for school expenses this year, as with the increased cost of living a lowering of efficiency would be disastrous. In regard to the school tax problem, Superintendent Lamkin says in his letter:

"There seems to be a wide diversity in the reates of assessment(some items being reported at even less than last year), and there are many rumors as to the possible action of the state board of equalization.

"It seems to me, therefore, that the safest plans for school boards to follow is to submit to the people at the annual meetings such a rate as on last year's valuation will produce the revenue needed. The state board of equalization will no doubt act before April 2, and if the valuations are doubled or trebled school boards can ask that the proposition submitted be defeated, and then submit a new proposition at a special election. However, if values are materially increased nothing less than the maximum levy will be sufficient to keep the schools going at even a minimum of efficiency.

"Where annual meetings are held at 2 o'clock in the afternoon (in three director districts), no notice of increase of levy is necessary. Such meetings will have the facts before them and can determine at that time the rate necessary to run their schools.

"Regardless of increased expenditures along other lines, it would be disastrous to the state and to the nation if a false economy should be allowed to lower the efficiency of our public school system. I therefore urge school boards to take the safe course and submit a proposition that will provide, if possible, enough money to secure a greater efficiency in the schools. Count on about the same apportionment from the state as last year. Any increase will be offset by increased cost of material and reasonable salaries of teachers. I will keep you informed as to developments.

"Very truly yours,
"UEL W. LAMKIN."

GOT GOOD PRICE FOR DUROCS

Some High Records Were Made at R. L. Hurst Sale at Bolckow Saturday—Top Price Was $330

At the R. L. Hurst sale on last Saturday at Bolckow of Duroc Jerseys some high records were made in the sale of this breed when an average was had of $128.48. The attraction was the offering of sows bred to Great Pathfinder, the animal Mr. Hurst refused $2,000 for before the sale. Some of his get sold as high as $330. Thirteen animals in the sale brought more than $150 each with Hanks & Bishop of New London, Ia., paying the top price.

A large number of Maryville buyers attended the sale and bidding was lively. Forty-six Jerseys constituted the Hurst offering.

LARGE CLASS FOR K.C. LODGE

Forty-five New Members Will Be Initiated on St. Patrick's Day—Visiting Teams Give Degree Work

Forty-five new members will be initiated into the first, second and third degrees of the Knights of Columbus lodge Sunday, March 17. All the candidates and members will attend mass in a body Sunday morning at the St. Patrick's Catholic church.

The first degree will be given at 11:30 o'clock Sunday morning at the Knights of Columbus hall, by the Maryville team. At 2 o'clock the second degree will be given by the St. Joseph team and will be immediately followed by the third degree, given by the Kansas City team. The second and third degree will be given at the I. O. O. F. hall.

A school of instruction will be held at 7 o'clock Sunday evening at the K. of C. hall.

NEED AGRICULTURE COURSE

Superintendent McDonald Sees Need For Instruction in This Line in the Public Schools—Some Activities

War has shown the need for a course in agriculture in the high school for with seed corn testing and war gardens being approved and urged by the food commission and government, together with other activities along agricultural lines, there is opportunity for service and a wider knowledge of things agricultural. Over twenty-five bushels of seed corn has been tested last week and more is being received to be tested and the boys engaged in the work are taking great interest in doing it properly. Supt. McDonald has not yet taken up the suggestion of the government that school pupils be organized for the cultivation of war gardens.

With the approach of the planting season boys who will secure permission from parents and have employment on farms will be permitted to leave school earlier, receiving credits for school work. Last season thirty-six high school boys were employed on farms in various parts of the county and state.

"We should, by all means," said Supt. McDonald this morning, "have a course of agriculture in the public schools. This is the biggest agricultural county in the state and it is becoming vital that agriculture be taught, and I hope next year to have such a course of instruction." Supt. McDonald also pointed out the need of a business course in the public schools.

Among the activities at the high school thirty girls and some dozen boys are getting ready for the annual competitive events at the Normal in declamation, extemporaneous speaking, singing and track and athletic events. Elimination contests will soon be under way to select entries for the various events.

It is likely that this year base ball teams will be organized, not for match games with outside teams, but for inter-school games.

AID TO FARM HELP PROBLEM

Registration Bureau Will Be Maintained for Farmers and Workers In Need of Help by Commercial Club

Men and boys who are desirous of securing places on farms during the summer will be aided in getting desirable places by Secretary E. M. Claypool of the Commercial Club, who will maintain a registration department for those seeking places. Farmers who are in need of help will also be placed in touch with competent help by the same means.

All persons desiring places will be registered on application to the secretary, as will also the names of farmers desiring help, and each will be put in touch with the other. No promise of employment is guaranteed by Mr. Claypool, nor will there be any charge for registration, it being the object to be of service to both those seeking employment and those desiring help.

50 NEW ONES, GOAL

COMMERCIAL CLUB MEMBERSHIP DRIVE STARTS NEXT MONDAY

10 TEAMS TO CANVASS

Club Hopes to Enlist the Aid of Every Citizen In Service for the Development of City's Resources

The date for the membership drive of the Maryville Commercial Club has been advanced. Instead of March 19 and 20, it has been decided, George Robb Ellison, chairman of the committee, has announced, that the campaign will open at noon next Monday and will continue through until Tuesday night.

Captains for ten teams to be composed of two workers or lieutenants, will be announced within the next few days. The members have set as their goal in this drive fifty new members.

A luncheon will be served at noon at which all the workers will be present. The plan of campaign and other information will be presented at this meeting. From there all the workers will start for a whirlwind drive.

The record of the Maryville Commercial Club since its organization in 1907 has been filled with bright spots. A glance at the records for the past two years shows a remarkable advance and activity. Through the various enterprises fostered directly and indirectly by the organization the name of Maryville has been made to mean more to both its residents, the people of Nodaway county and people all over the United States.

The purpose of this campaign is to enlist citizens in Maryville who should have an active part in every move for the growth and development of the city and county. The Commercial Club is an institution as essential to the welfare and civic and business life of the city as the administration at the city hall is to the governmental development of Maryville.

CARRIERS HAVE SOLD $4,298

Rural Deliverymen Are Pushing Sale of War Savings and Thrift Stamps On Seven Routes

The seven rural mail carriers out of the Maryville postoffice have sold $4,298.25 worth of war savings certificate stamps on their routes in addition to securing a number of promises from people who will buy later. The campaign for the sale of these stamps will be continued and the carriers are taking a great deal of interest to have their routes in the lead.

The following are the amounts the carriers have sold:

Route 1, $1,385; route 2, $898.75; route 3, $278.25; route 4, $676.75; route 5, $140.50; route 6, $413.25; route 7, $505.75.

BILLIE BURKE COMING

In "The Mysterious Miss Terry" at Empire Tomorrow Night

Among the many deft humorous touches inserted in Billie Burke's latest Paramount Picture by Director J. Searle Dawley is the picturization of the rivalry between two impecunious young clerks for the hand of "The Mysterious Miss Terry," which, by the way, is the name of the production, "The Mysterious Miss Terry" has become an assistant in a hardware store and both young men invent frequent and usually unnecessary errands there to bring them into the presence of the young lady. Everything in the store they can possibly use—and much that they cannot—is purchased, from flatirons for paper weights to embroidery scissors for opening mail. The picture is full of scenes of mystery and intrigue as well as these countless "human interest" touches. Don't miss Billie Burke in her greatest success which comes to the Empire theatre tomorrow night.

IN A BIG JUBILEE MEETING

Feature of Methodist Gathering and All-Day Session Will Be Bishop Quayle's Address Tonight

The jubilee meeting of the First M. E. church today in the interest of the endowment fund for Central Wesleyan College at Cameron is being held with all the speakers on the program present. Bishop William A. Quayle, delayed by the arrival of the Wabash train on which he was a passenger, was driven over this afternoon from Stanberry and will address the meeting both this afternoon and this evening.

At the morning session the attendance was small but a larger crowd gathered to hear the speakers this afternoon. Dr. Cameron Harmon, president of the college, spoke this morning on the question of whether it was a patriotic thing to launch the campaign at this time and showing the need now greater than ever before. Henry E. Bragg, a well known St. Joseph shoe dealer, told of the campaign as seen by a layman.

Speakers on the program this afternoon besides Bishop Quayle are Dr. F. O. Fay, Dr. John W. Hancher, Dr. F. D. Empey and Dr. C. E. Flynn.

At six o'clock in the church parlors there will be a banquet for the visiting ministers and laymen, with after dinner talks by C. H. Sauceman, Geo. P. Sturges, Gilbert S. Cox, Dr. Chas. J. English and Dr. Ben P. Jones.

At tonight's session the college glee club will lead a song rally following which Bishop Quayle will make the principal address.

Much interest is being taken in the jubilee meeting among both ministers and laymen.

THE NEW CALL ORDER

MEN ENGAGED IN AGRICULTURE TO BE GIVEN DEFERRMENT

OTHERS TO FILL QUOTA

Situation Arises From the Scarcity of Farm Labor—Conduct of Deferred Men Ordered Observed

In order to make up the new quota of 95,000 men called to the colors, deferrment will be given men actively engaged in agriculture, their places to be filled with men in Class 1 who are otherwise engaged. The local board is in receipt of the following instructions from Provost Marshal General Crowder, giving directions as to how deferrments should be granted:

"A new national and state quota will be announced as soon as congress acts on pending legislation governing the apportionment of quotas. In the meantime it will be necessary to call a new increment of about 95,000 men to be distributed equally throughout the United States. The call for these men will go out later in the day. In several cases this call will run over the current quota of the state and boards upon which it is made, but the excess will be credited on the new quota of each state and boards affected, as will all other excess due to special calls.

"The situation arising from the scarcity of farm labor demands that the call to the colors of men actively completely and assiduously engaged in the planting or cultivation of a crop, but who are in Class 1 and within the new quota, should be deferred until the end of the new quota. Please instruct your local boards therefore, that the president directs, in filling this emergency call, they shall pass the order number of such men and defer their call for the present. It must be borne in mind that this step is taken solely in the need of the nation and not for the benefit of any individual. Therefore, while boards should consider it a grave duty to exercise this power to conserve and augment the agricultural production, they should observe closely the conduct of those deferred, and immediately upon becoming convinced that any person so deferred is not giving his entire time and earnest attention to agricultural duty, or that he is trifling with the deferrment thus granted him, the board should forthwith call him to the colors. All citizens should assist in making this expedient effective and in bringing to the attention of the boards cases meriting deferrment as well as cases in which the deferrment is being abused."

Robert Moffitt of Clyde and Judge Matt Farnan of Conception Junction were in Maryville on business today.

Several Interesting Demonstrations by Rural School Pupils Interested the School Convention Yesterday

An interesting feature yesterday afternoon on the program at the county convention of members of school boards held at the court house, were the demonstrations given in agriculture by pupils from several rural schools. For most of those present it was a new experience and to see and hear children talking about and explaining the best practical method of cold pack canning, stacking oats, making potato war bread and testing seed corn brought the closest attention from the two hundred men who were there.

Lela Buzzard, a pupil of Glendale school, gave an interesting illustration on cold pack canning, explaining how various fruits and vegetables might easily be conserved with the least expense and at a saving of time.

Lorace Gray, also a Glendale grade school pupil, astonished the men by his ability to shock oats, and with bundles of the grain made perfect shocks, at the same time explaining the reason for the manner in which they were made.

Alva Aley, formerly of Ellis Grove school, now attending the Garrett school, demonstrated with a seed testing box the method of testing seed corn, going into detail as to the various processes. Young Aley has already tested twelve bushels of seed corn this spring.

Donald Williams of Lasher school, gave an explanation of a clover survey and the results that would be apparent when planted and cultivated in the proper manner.

Lorena Goff, also of Lasher school, brought a loaf of potato war bread of her own making and explained the process of making.

Cleo Holt of Mt. Pleasant school explained the best treatment and gave a formula to be used in case of smut.

A brief discussion was had at the afternoon session of the advisability of having pie suppers and box socials as a means of adding to the school fund. It was the unanimous opinion that such events should be held oftener than they are, as they not only serve to add to the treasury for books and other supplies not always available out of the general fund, but provide a means for community service and interest and the promotion of neighborly spirit and better acquaintance. School entertainments and benefits were given hearty endorsement.

STATE-WIDE WORKLESS DAYS

Asst. Sec. of Agriculture Advocates Shut-down of Industries for Fifteen Days During Harvest

Special to The Democrat-Forum.

Washington, March 13.—"State-wide workless days" during the harvest season were advocated this afternoon by Clarence Ousley, assistant secretary of agriculture, before the senate committee on agriculture. The assistant secretary said that it would be necessary to shut down all non-essential industries for fifteen days during the harvest season in order that workers might be sent to the farms to help harvest the crops.

DIRIGIBLES IN AIR ATTACK

Air Raiders Over London Dropped Bombs From Great Heights—British In a Successful Raid

Special to The Democrat-Forum.

London, March 13. — There were three hostile aircraft in the German raiding squadron that attacked the Yorkshire coast last night, it was announced today. Bombs were dropped on Hull House demolishing it and one woman died from shock. Other German aircraft wandered aimlessly through the sky for some time dropping bombs from great heights, apparently with no fixed objective. The attacking craft were Zeppelins, this being the first time dirigibles have been used in months in attacking England.

Heavy German cannonading was carried out last night in the sectors at Messines, Loos, Paschaendale and Cambrai, according to a statement today. At Lens the British made a successful raid, penetrating the German trenches and capturing some prisoners. At Armentiers on the French front the Germans carried out a raid with strong forces and a few British soldiers are missing.

LAND IN STATE WORTH MORE

During the Past Year An Average Increase of $7.00 per Acre Is Shown

Values of all classes of land in Missouri have advanced on an average of seven dollars per acre during the past year. The average value per acre of Missouri land with improvements is $78, and that without improvements $61.

The average value per acre with improvements in the northwest district is $124; north central, $88; northwest, $80; west, $85; central $67; east $75; southwest, $58; south central, $36; and in the southeast, $77. Land in most sections "without improvements" is usually valued at $15 less per acre; however, in some of the central and Ozark counties the difference is much larger.

FRENCH IN REPRISAL RAID

Military Airdrome in Rear of German Lines Was Attacked and Much Damage Believed to be Done

Special to The Democrat-Forum.

Paris, March 13.—While German airplanes were attacking Paris on Monday night, French machines raided German military airdromes in the rear of the German lines, it was officially announced today. Many tons of bombs were dropped and it is believed that much damage was done. It is now learned that at least five German machines were shot down.

Heavy cannonading is taking place in the Lorraine front, according to the French war office. American troops are holding a large sector on the Lorraine front.

During the air raid Secretary Baker and Maj. Tasker H. Bliss, American chief of staff, were in conference, the meeting being held in a cellar.

Secretary Baker was in conference with General Tasker H. Bliss, the American chief of staff, in a hotel suite when the air alarm was sounded. Secretary Baker was not perturbed by the noise of the firemen's sirens or the barrage of the anti-aircraft guns, but the hotel management, fearing for the safety of the secretary and his party, persuaded them to descend to a place of shelter in the wine cellar.

A Revelation of Hun Horrors.

Secretary Baker made the following statement concerning the air raid:

"It was my first experience of the actualities of war and a revelation of the methods inaugurated by an enemy who wages the same war against women and children as against soldiers.

"If his objects are to damage property the results are trifling when compared with his efforts. If his objects are to weaken the people's morale the reply is given by the superb conduct of the people of Paris.

"Moreover, aerial raids on towns which are counterpart of the pitiless submarine war and the attacks against American rights are the very explanation of the reason why America entered the war. We are sending our soldiers to Europe to fight until the world is delivered from these horrors."

HER DAUGHTER WAS SAVED FROM OPERATION

Mrs. Wells of Petersburg Tells How.

Petersburg, Va.—"For two years my daughter suffered from a weakness and pains in her right side; at times she was so bad she could not do any work. For two years she was attended by the best physicians here, and both agreed that she would have to be operated on. I suggested Lydia E. Pinkham's Vegetable Compound, and at first she refused to take it, but finally consented. From the very beginning it helped her, and now she is entirely well, and telling everybody how much good it has done her."—Mrs. W. D. WELLS, 226 North Adams Street, Petersburg, Va.

RAISE FISH IN BACK YARD

St. Louisan Suggests a New Food Conservation Scheme—Has Been Tried With Success

St. Louis, March 13.—If you want to help Uncle Sam win the war raise fish in your back yard. The new food conservation scheme is going to be tried out here with the slogan, "Keep ten fish in your back yard."

S. Chichester Lloyd, president of the National Aquarium Society, is sponsor for the idea and suggests it be adopted all over the nation. Lloyd in his back yard last year raised 20,000 fish in three 500-gallon pools.

With little care the average city dweller with back yard space can raise all the fish he needs for his table, says Lloyd. Many types of the finny tribe are eatable at the end of the first season, he declares. The German carp is said to be the most popular and it is pointed out is a habitue of every back yard in Germany.

THOUSANDS APPLY FOR JOBS

35,000 Asked to Take Civil Service Examination for Clerks—Stenos Are Badly Needed

Washington, March 13.—That American men and women are eager to accept every opportunity to help in the nation's greatest undertaking is evidenced by the responses received to the announcement of the United States Civil Service Commission of the need for general clerks. The commission sent out a call for clerks to be employed in the departments in Washington and January 5, February 9 and March 9 were set as examination dates. About 35,000 persons applied for admission to these examinations. A large percentage of the applications came from persons whose sole purpose in seeking government employment was to help keep the war machine moving. This prompt and heavy response has made it unnecessary to hold further examinations for general clerk in the near future. Examinations for stenographers and typewriters and for clerks trained in special or technical lines are still being held.

The most pressing need of the government service in Washington right now is for a large number of well qualified stenographers. The Civil Service Commission urges persons who are equipped to pass the stenography part of the examination to apply at once. Examinations are held at least once a week in 450 of the principal cities. Definite information and application blanks may be obtained from representatives of the Civil Service Commission at post offices.

QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

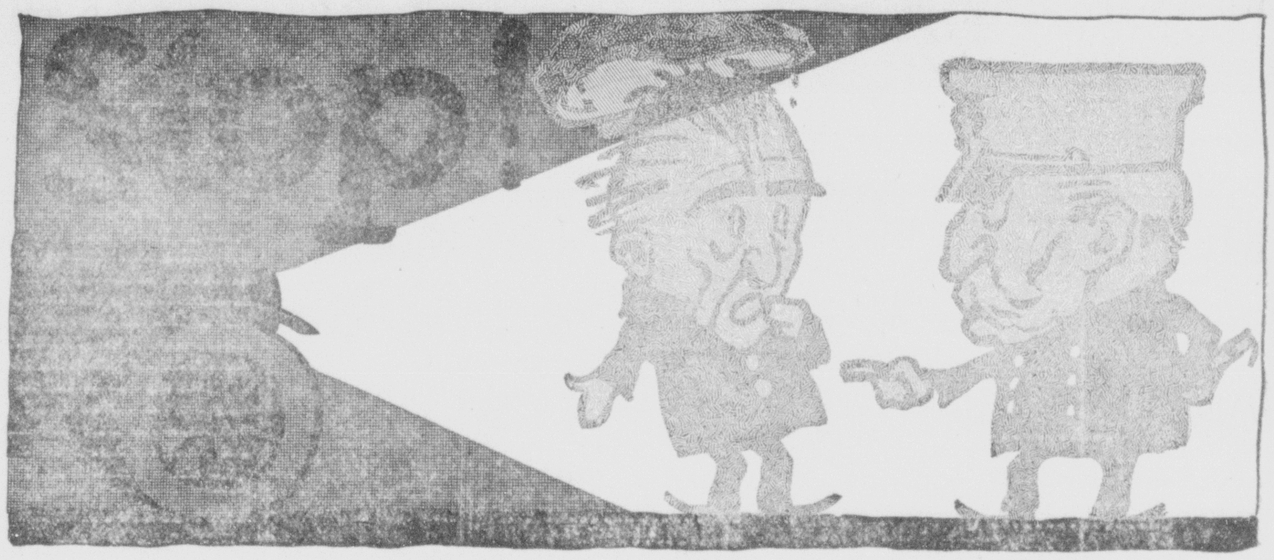
Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little Dr. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. All druggists.



If the cop says "Stop!" it may be too late to wish you had obeyed the law. Your headlights *must not* throw a single blinding ray of light above 42 inches from the ground. The fact that you *thought* your lights were O. K. is no excuse. It's up to you to be *sure*.

There is an abundance of convincing proof that the McKee Standard Lens meets every requirement of the law. The scientifically designed prisms give 63% more light than a plain window glass lens and project this light below the 42-inch dead-line, 600 feet ahead of the car.

The exclusive concave-convex shape gives a very strong side light that illuminates ditches, banks and beyond curves—and without which there is danger of a smash-up in turning corners and passing cars.

The McKee Standard Lens is all glass, crystal-clear—needs no dimmer—and makes an unusually neat appearance.

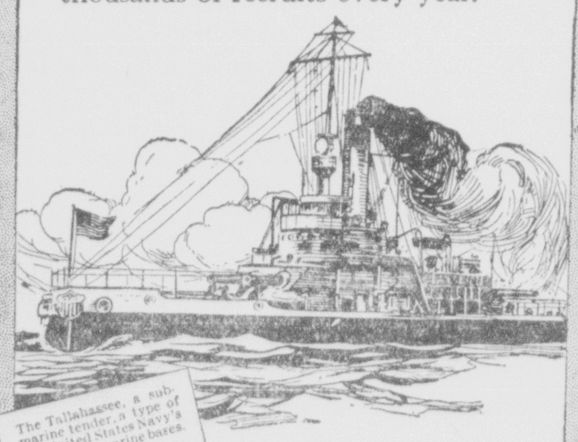
QUALIFIES WHERE QUALITY STANDARDS ARE STRICTEST

Calumet Baking Powder is now used in the Army and Navy. For years it has been used by an army of *housewives*—and that army enlists thousands of recruits every year.



The Tallahassee, a submarine tender, a type of the United States Navy's floating submarine bases.

Housewives use Calumet because it produces best results. They judge it by results entirely. Government experts selected Calumet for this same reason—and other *reasons* too. They looked *back* of the results. They demanded purity in Baking Powder, and purity in bakings, as well as surety of results.

They selected Calumet because they could secure these desirable qualities—and were *certain* of getting them. The strongest guarantee you could ask for Calumet's thorough *goodness*. Try it.

WOMEN ARE NEEDED
TO HELP IN WAR

Women can be usefully employed in nursing the wounded, in making up the soldiers' kits, and in a thousand other ways. Many American women are weak, pale or anemic from woman's ills. For young girls just entering womanhood; for women at the critical time; nursing mothers and every woman who is "run-down," tired or overworked—Doctor Pierce's Favorite Prescription is a special, safe and certain help. It can now be had in tablet form for 60 cents. All druggists.

Send Dr. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10c for trial package tablets.

ST. JOSEPH, MO.—"Dr. Pierce's Favorite Prescription has saved me lots of suffering. I have taken it during expectancy and it always kept me in good health at that time. I also took it later in life and it brought me through in good health."—MRS. JENNIE MORGAN, 1730 Bell St.

TRENTON, MO.—"I found Dr. Pierce's Favorite Prescription even better than it is advertised to be. I had woman's trouble; through this I became a nervous wreck. I would have severe pains in my head which would cause me to become dizzy. I had backache, pains in my side and bearing-down pains that would at times extend down into my limbs. I took 'Favorite Prescription' and it restored me to health and strength and at different times I have taken it as a tonic and always got good results. Women who suffer will surely find relief by taking 'Favorite Prescription.'"—MRS. MARGARET EVERETT, 2214 Lulu Street.
